

Give the gift of adoption

The Center's Wildlife Ambassador Adoption program offers a special opportunity for you to show your support of this critical educational work.

By sponsoring one of these animals, you will contribute to the cost of feeding, medical treatment, and daily care for that animal for one year.

Through your support, these beautiful animals will continue to be ambassadors to the human world, the bridge that connects our community to a world that is usually seen from a distance.

Sponsors or their designated recipients receive a framable certificate naming them as the sponsor of the animal of their choice, and an attractive photograph of the species, its natural history, physical description, and information on living habits.
